Installation of the social iPhone application.

After you have purchased and received your talk2me social account number and password you will need to obtain the iPhone application to access your new social account and group voice chat features.

Ways to obtain the application:

You can visit on your phone: iphone.talk2mesocial.com

You can go your App store on your iPhone and search for: **POC Global**

Once obtained, process the installation, and accept voice and microphone options, all other options are at your discretion.

After you install the application:

You will see the POC icon on your iPhone go ahead and open it up.

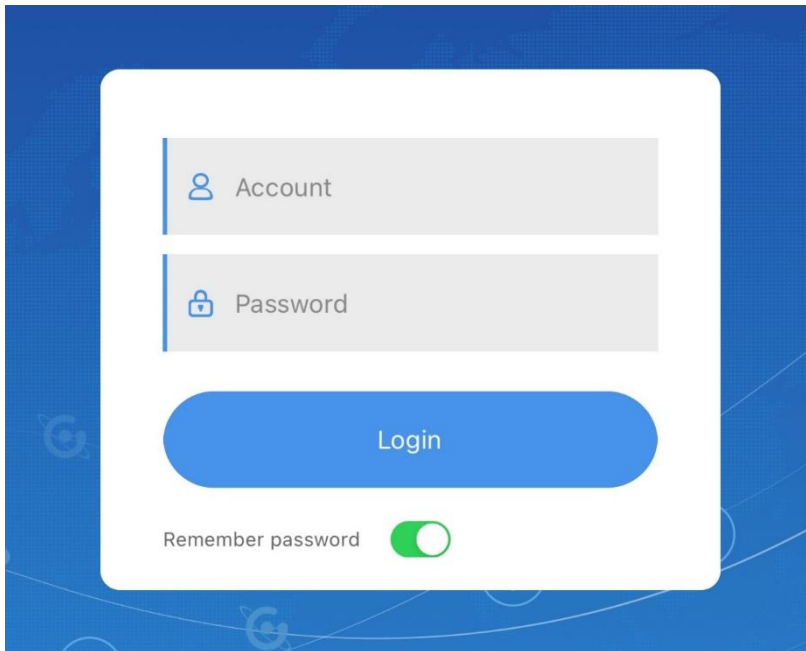

share your voice.

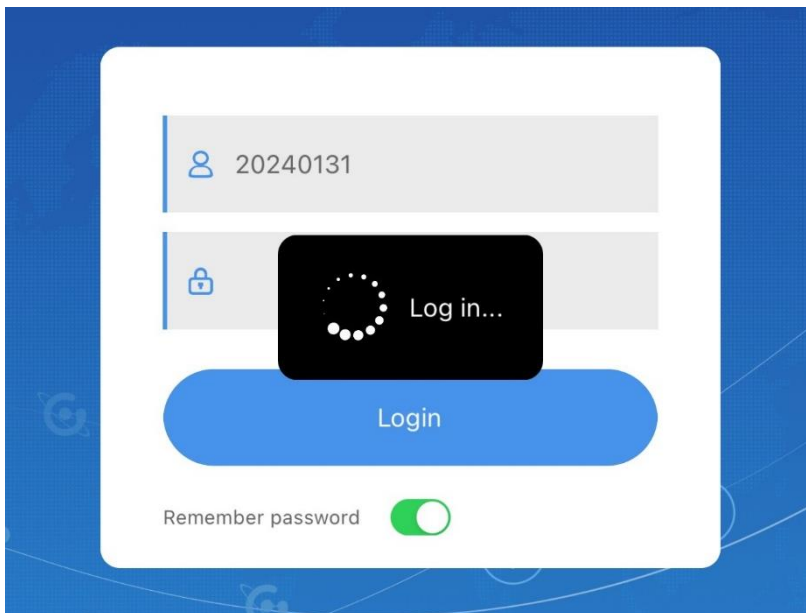

Entering the application for the first time:

Once you have entered the application it requires your talk2me social radio account number, this is a 15-digit number assigned to you.

In the fields below you will enter your information. (Check your email for this information)

Then click on the blue login button.

The main screen of the application:

Now that you're on the main screen you can conduct several functions. We will go over these functions one by one.

share your voice.

Important – Before your start using the service:

UPDATE YOUR PASSWORD FIRST.

Click on the settings icon on the bottom right of the screen.

You will arrive at the settings menu below, then click on **Change password**.

The screenshot shows the 'Settings' menu with the following elements:

- Settings** (blue header bar)
- User profile: **SU_1000000** V 1.0.23
Account: 202401310
Audio service time: Forever
- Voice** (expandable section)
 - Volume adjustment:
 - Voice broadcast:
- Show** (expandable section)
 - Start speak prompt:
 - Network speed: 0.00(B/s)
- Change password** (button highlighted with a red border)

share your voice.

Then you will see the next screen below:

Field Label	Placeholder Text	Visibility Icon
Old	enter old password	Eye closed
New	enter new password	Eye closed
Confirm	enter confirmation password	Eye closed

save

Here you can update your password. Once done hit save and you will be logged out of the application, and you can reenter the application with your new password.

Password can only be 8 alphanumeric characters long.

Main Page – Groups feature:

This is the main screen you will always see when your application opens. Here you can choose from the many voice chat groups available. If you have paid for personal private channel programming those groups will appear on the public social channels. By default, you are entered into social CH1 or your private CH group when opening the application. Just click on a different channel and you will enter the new group and a prompt will let you know you're on the new channel.

Once you're on your desired group channel you will see a list of members.

Blue Members are currently active in the group chat.

Orange Members are active in our groups.

Grey Members are currently offline from the group network.

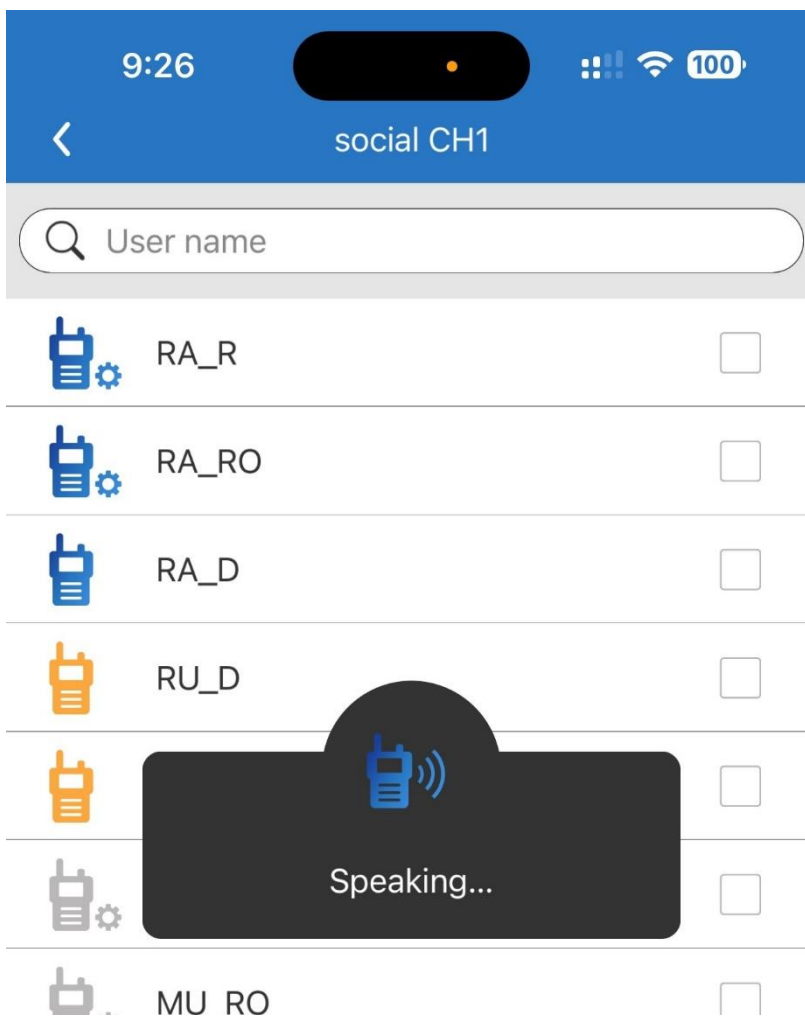

talk2me

Main Page – PTT (Push to talk button):

Let the conversations begin. Introduce yourself by pressing and **holding down** the blue PTT button found at the center bottom of the application, once you press the button wait 3 seconds before speaking and then you have up to 60 seconds (some channels 30 seconds) to voice your conversation.

After you are done speaking release the PTT button and listen to the conversation, when it is your turn to speak press and hold the PTT button and speak. It is that simple.

talk2me

share your voice.

Key takeaway: If someone else is speaking you will not be able to talk over them, they must finish their transmission before you can speak, crowded channels may be harder to speak in so you may consider trying a different channel.

Example of someone else speaking:

social CH1

Group name

	All members	5/18
	social CH1	5/18
	social CH10	5/18
	social CH11	5/18
	RA_RO	5/18
	TRSpeaking...	5/18

Additional settings:

Voice Menu:

1. Volume Adjustment: The volume of the application can be adjusted either by your volume buttons on your iPhone or on your screen.
2. Voice Broadcast: If authorized is used for channel hosts presenting a live show that requires continuous transmission. To register as a show host contact us at admin@talk2mesocial.com

Show Menu:

3. Start speak prompt: This feature enables a beep before you start talking.
4. Network speed: This shows how much data is being used by your phone.

share your voice.

5. Switch account: If you have more than one talk2me social account, you can switch between accounts.
6. Exit: You can log out of the application.

The screenshot shows the 'Settings' screen of the talk2me application. At the top is a blue header with the word 'Settings'. Below it is a user profile section with a blue person icon, the username 'SU_1000000', and the version 'V 1.0.23'. Underneath the profile are the details 'Account: 202401310' and 'Audio service time: Forever'. A horizontal separator line follows. Below the separator is a section titled 'Voice' with an upward-pointing chevron icon. Under 'Voice', there are three settings: 1. 'Volume adjustment' with a slider control. 2. 'Voice broadcast' with a green toggle switch that is turned on. Another horizontal separator line follows. Below it is a section titled 'Show' with an upward-pointing chevron icon. Under 'Show', there are two settings: 3. 'Start speak prompt' with a green toggle switch that is turned on. 4. 'Network speed' showing '0.00(B/s)' and a green toggle switch that is turned on. A final horizontal separator line follows. Below it are three more menu items: 'Change password', 'Switch account', and 'Exit', each with a numbered callout (5, 6, and 6 respectively) in a circle to its left.
